

Occupied North – Buying property

- Anyone who is seeking to "buy" Greek Cypriot owned property in the occupied North does so illegally and such action constitutes a criminal offence for which they will have to face a European arrest warrant in whichever of the European Union countries they may be.
- According to the Land and Registry record, approximately 82% of the privately owned land in the territory now under Turkish occupation is owned by Greek Cypriots, 16.7% is owned by Turkish Cypriots.
